The thing I like most about it is that it could be done with a group (which is what it is intended for), by yourself, or even with kids. I liked how unique this devotional was and how it brought out a new creative way to worship and celebrate God while receiving revelation and hearing from Him. This is a fun devotional that is simple, yet

deep. Sometimes you are focused on your words, and sometimes it focuses on drawing, each day has a unique approach and most days allowed me to hear from God in different ways. One thing I will say is that it is not a devotional that does a lot of deep Scripture studying. The Scripture for each day is minimal. It is more or less a few verses that you can meditate in your heart for the day (it's a good way to try to remember Scripture). For me, this was a devotional that focused on strengthening my personal relationship with God as it challenged me to rely on Him and be more intentional about listening to Him and seeking Him. This is a fun and different way to do a devotional and keep your relationship with God exciting and fresh. It's an energy charger. 1 of 1 people found the following review helpful. By Customer This devotional has unlocked such a creativity I honestly never thought I had! It is so different than any other I've done. I love the prayer prompts with each daily scripture. This alone has helped improve my prayer life and my communication with God. I love the child like faith in me that stirs as I do the daily drawing prompts. These prompts have helped me have so much freedom in my creativity in Jesus Christ and shown me new levels of His love through them. I also love how this devotional is also able to be used as a small group study! Can't wait for another edition to be released!!
