Christina Rose : Dream Catcher: life on earth: A powerful inspiring colouring book celebrating the beauty of nature before purchasing it in order to gage whether or not it would be worth my time, and all praised Dream Catcher: life on earth: A powerful inspiring colouring book celebrating the beauty of nature:

108 of 108 people found the following review helpful. The cover picture is representative of most of the pictures in the book. Printed one per page with quote on back of page.By Jackie Cooper45 Illustrations of animals and a few miscellaneous plants, all adorned with simple flowers, leaves, and geometric shapes. Many pictures are an image of an animal, others just the head of animal, a few illustrations have backgrounds along with the animal.With this book keep in mind that the artist added many miniscule details (too small to color) that are to be colored over as a larger area,

look at the cover picture on the small elephant's trunk as an example. The cover picture is representative of most of the pictures in the book. On the back of each page is an inspiring quote that will add to your coloring experience. One example (I believe the world is incomprehensibly beautiful-and endless prospect of magic and wonder.)

1. 45 Illustrations printed one per page (on the back of each page is a beautiful, inspirational quote) on medium weight, bright white paper.
2. All Markers and some Gel pens leak through the paper so to prevent leakage onto the next picture, place a scrap sheet of paper under the page you are coloring and make sure the picture is dry before removing that page.
3. The pages have a dotted line next to the binding for cutting the page from the book.

Tip; 1. The areas that are too small too color and other areas that you want to bring attention too, just color over the decorations and let them subtly decorate areas such as a nose or mouth.

42 of 46 people found the following review helpful. Print quality is awful

By Ace Maybe I am just spoiled by other books but the printing quality of this one and the others by this author are awful. The paper is like printer paper and the black of the lines bleeds into the pictures. I ordered two by this author and will be giving them away or letting my 2 yr old scribble in them. Bummer because the pictures are nice.

20 of 22 people found the following review helpful. Awful.

By kina I bought both "Life on Earth" and "The Tree of Life". The artwork in both is absolutely dreadful. Some of the pictures are hard to figure out what they are. Neither of these are what I thought they would be. I am very disappointed. The attached photos are from both books because I plan to leave this same review for both.

Dream Catcher: Life On Earth A powerful inspiring adult colouring book celebrating the timeless beauty of nature. Relax as you wander through Life On Earth with Christina Rose's hugely successful Dream Catcher series of adult colouring books. Gorgeously detailed illustrations are coupled with positive words, which together celebrate the power and beauty of the natural world around us and promote personal relaxation through art therapy. Reconnect with the natural world and encourage your mind to move in a new direction as you lose yourself in the vocabulary of colour and art. You may also enjoy other anti-stress art therapy colouring books by Christina Rose including: Dream Catcher: finding peace, Dream Catcher: mindfulness, Dream Catcher: the tree of life, Dream Catcher: a soul bird's journey
