It has been stressing me out to no end. I find it very tedious and frustrating. The shapes are very tiny, and there were several pages that were smeared and covered in black ink. Also, some pictures have details that are so ridiculously tiny and that are lined so darkly that you can barely find room to

color within the shapes. It does have some very nice phrases on the pages opposite the pictures. But you do not color those. Also, every picture seems to be made with almost the same shapes. There are a lot of teardrop or leaf shapes and flowers. A variety would have been nice, and I would have felt less like I was coloring the same picture over and over again. We did not purchase it from , but I wanted to write a review because I was so disappointed in the details and quality of this book. 0 of 0 people found the following review helpful.
