I'm in love with this coloring book!By Shannon ClarkI love Ravynne's art and wanted to get back into doing my own art after having had hand problems a while back. This coloring book is a great segue to retrain myself since I'm a bit out of practice. Most of the images are pictorial rather than totemic or mandala like and all have wonderful detail. The paper is high quality and the book is a comfortable size and well bound. Each coloring page is on the right side of the open book with it's background/description/story on the left page. (See pics) I've finished a couple of images and included one half finished and a few completely uncolored pages for you to judge for yourself. These pics were taken with my camera phone and don't really do them justice, but I hope they'll help you decide.0 of 0 people found the following review helpful. About the AuthorAs a child, Ravynne Phelan (also known as Michele-lee Phelan) dreamed of becoming an artist, but fell into despair in her teenage years when many told her a career in art was an unattainable dream. For the next fourteen years she lived in a world empty of color?until she was officially diagnosed with depression and introduced to art therapy. With her childhood dreams rekindled at 33 years of age, she became a professional artist and illustrator. In 2011, Michele-lee became Ravynne, to celebrate and honor the magical path she has walked in service to Gaia and Great Spirit, and to mark the end of her battle with depression.
