Worst calendar in history. It says the dumbest things ever said or done but it is filled with random facts that are not interesting in the least bit. It pretty much just goes into detail about famous people in history, and not a quick tid-bit about some stupid criminal or dumb phrase. They DEFINITELY are not Dumb or unintelligent. The worst part is that for 365 days this calendar continues to let you down. You think that the calendar will get better, you tell yourself, "Surely tomorrow's page will not suck as bad as today..." and then tomorrow comes. If you want to be disappointed day-after-day, then this calendar is for you.

A house burglar escaped the police before the cops could respond to the alarm, but the not-so-bright thief checked his Facebook page on the homeowner's computer and neglected to log off before fleeing. Big mistake! The cops knew exactly whom to arrest! It's not just criminals who behave like dimwits. Politicians, athletes, novelists, and everyday people often forget to engage their brains, too. Fortunately, their stupid mistakes make for some insanely funny anecdotes in this calendar's collection of the dumbest things ever said or done.
