By Katherine Russo The title of this book was intriguing but I had hoped it was a larger more comprehensive book in content. The pictures were nice and so were the captions. I was hoping for a more psychological approach given the title. It was a nice one hour read. 0 of 0 people found the following review helpful. It's actually pretty funny! Cats are such great providers. They always take out the trash. They listen to every word. Never talk back, or complain. Cats are great husbands.

What can a cat offer a woman that a man cannot? Well, for starters, a kittie comes home when he's called, doesn't steal the blankets, helps clean the dishes and never misses the toilet! These are just the beginnings of why a woman is wise to lose her man and marry the cat instead. This humorous book matches color photos with all the witty wisdom of this

very logical way of thinking, including the facts that cats forgive all mistakes, don't pick fights, have lots of hair and don't channel surf. Who needs a man when you can get all this and hugs and kisses on demand?
