Joshua Kinser : Eat Bark Fetch before purchasing it in order to gage whether or not it would be worth my time, and all praised Eat Bark Fetch:

0 of 0 people found the following review helpful. Wonderful story told from a dog's perspective! By Mary Jones As the others before me I have to give this book 5 stars! It was an excellent read! I love dogs and I love books from a dogs

perspective. I don't want to say too much and give the book completely away, but I do agree with one of the other reviewers about the lessons in this book about midlife crisis. I have wondered at times why a person with everything -- a wonderful job, wonderful spouse, and great kids -- would just throw it away and walk away from it all. Losing all the important things to them. Then, when they want to come back the spouse is no longer waiting. What did they expect? Well, Digger learned this lesson, too. But, as for so many humans who find themselves in that situation, Digger did go on I highly recommend this book! 1 of 1 people found the following review helpful. The Message from Digger By Gary Well Joshua has done a superb job with this book. Written from a dog's point of view, I think the message is unique, in that the grass is not greener on the other side of the fence. Mid-life crisis in many lives has turned out to be disappointing to many. Sometimes this results in broken ties with the ones you love and sometimes results in irreparable damage. Well worth reading, and the comedy angle is great! The music also makes for an interesting read. 0 of 0 people found the following review helpful. Loved it By Tammy French Loved learning a few life lessons from a group of dogs. Glad that Saint had his realization that he was a good doggie.

In this comedy about dogs, Digger is a seven-year-old beagle, and he's having a midlife crisis. After unexpectedly digging a hole underneath his fence and running off to New Orleans to start a new life, Digger and a pack of fun-loving mutts set out on a comical expedition across the Southern United States. Along the way, Digger discovers a dog's true purpose, and more importantly, has an experience that finally puts the wag back in his tail. This book includes a free musical soundtrack with original songs (excluding tracks 1 and 8). Look inside the kindle version to hear a sample.
