(i will try my best to explain this) the mother asked the little girl(zoe) does she know how the bee makes honey, the girl says no, so the mother starts explaining, and after she explains. the mother asked if the little girl understood, she said yes, and so honey is bee barf, is what the girl told here mother and her mother looks at her shocked that she said that but told her yes. i just laughed so hard about that one and it always stuck inside my head. trust me on the baby blues you will laugh, cry(but a good cry,laughing cry) get all the books0 of 0 people found the following review helpful. Five StarsBy Kindle Customer#10 of 0 people found the following review helpful. Eat, Cry, Poop: Purchased at .comBy depEven though this is book number 28 of the Baby Blues series, I thought it was one of the funniest by far. Among other things, Hammie and his dad get some rub on tattoos. Hammie also locks himself in the bathroom, then climbs

out the window much to his parents dismay. Of course there is always the classic trying to drive your siblings crazy, such as with a nice jolt of static electricity. A sensational read definitely worth five stars.

Baby Blues is a pitch-perfect and hilarious family-oriented comic strip that typifies modern parenting. Inside Eat, Cry, Poop: Baby Blues Scrapbook 28, Kirkman and Scott intuitively balance the humorous with the poignant through relatable and sometimes all-too-familiar parenting scenes.
