A. A. Milne : Eeyore's Gloomy Little Instruction Book (Winnie-the-Pooh) before purchasing it in order to gage whether or not it would be worth my time, and all praised Eeyore's Gloomy Little Instruction Book (Winnie-the-Pooh):

I have read the similar Winnie the Pooh, Tigger, and Piglet books and they were very disappointing. This seems to be the only one out of the 'action packs' that is really good. Definitely recommend for self- or as a get well, miss you, birthday, or any other occasion. 0 of 0 people found the following review helpful. Adorable. By Jessica It's a super cute book. Good for bringing up the spirits of any person any age! 4 of 4 people found the following review helpful. Some can and some can't By Pua Ting I love love love Eeyore. I love love love his gloominess. There's something about his woe-be-gone personality that speaks to our family; thanks to the author for being inspired by the donkey.

A humorous sequel to the popular Pooh's Little Instruction Book appeals to the pessimist in every fan with such insights as ""Nobody cares,"" ""Pathetic, that's what it is,"" and what to do when your tail is missing.
