Reverend Loveshade : Ek-sen-trik-kuh Discordia: The Tales of Shamlicht before purchasing it in order to gage whether or not it would be worth my time, and all praised Ek-sen-trik-kuh Discordia: The Tales of Shamlicht:

0 of 2 people found the following review helpful. Blow your soulBy Miley SpearsMy review was here for over two years why was it removed? I might think it was because I contributed a little bit but I admitted that the first time. And several reviews are missing. Fortunately I found mine on a mirror site so here it is again.The book is awesome! And that's not just because I contributed. :-D All I did was write Discordian American Princesses and pose with Rosey Tiger for TawTew's painting "The Kiss."Ever laugh at a comedian's jokes and then suddenly think, "OMG, that may

change my whole perspective?" That's this book. Do not read this book if you aren't willing to challenge your thinking and perception. It's a literary collage, a joke book, a puzzling philosophy, a riddling rant, a challenge of the way we write and speak and raise children. It's a graphic description of animal and human sex that goes well beyond lesbian-gay-bisexual-intersexual. Sometimes it's fascinating, sometimes it's funny, sometimes it's silly, sometimes it's profound. It will get you laughing and then suddenly-ZAP-will blow your mind. It's not a book for anyone who's afraid of digging deep inside themselves and seeing what's hidden in the backyard of their mind. It will challenge how you see reality and even yourself. You'll be amazed at what you'll find hidden in the shade of your heart and soul. Or you won't get it at all. 10 of 14 people found the following review helpful. Plagiarism By *~Stella~* You can read a lot of this free on the internet. That's where Loveshade got it. Without permission. Do that and if the money is burning a hole in your pocket, buy food for homeless people and feral cats. Or if you MUST waste it, go buy a round at the bar and if anything's left use it to light a cigar. 8 of 12 people found the following review helpful. A work of plagiarism. By Kaousuu This book contains work that was plagiarized from writers at Principiadiscordia.com who wrote it for free for anyone to read. Do not support this man. He's a phony and profiting from Kopyleft writing that is NOT his own.

Is the adoration of Goddess Eris Discordia a joke disguised as a religion or a religion disguised as a joke? Yes-and no. Discordians coined 'neo-paganism;' got Planet X named Eris; twisted the victory sign into the peace sign; and helped create the counter-culture. And got in big, big trouble. Written by Reverend Loveshade with Other Assorted Troublemakers, this book humorously and intellectually challenges social norms, sexism, ageism, legalism, and even its own personism and Discordianism. It features stories, articles, games and quizzes, lists, art, photographs, myths, humor, and more. Portions of it were seized by the FBI, then released. Read with your mind open-and the curtains closed.
