Jim Puzzler : El libro de oro de los crucigramas (Spanish Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised El libro de oro de los crucigramas (Spanish Edition):

5 of 5 people found the following review helpful. It is meant for Mexicans and people that completely know the Mexican idioms and culture By Booklover mom Like my title suggests: it is meant for Mexicans and people that completely know the Mexican idioms and culture, so if you are not that versed in Mexican lingo, you won't enjoy this. Furthermore, the author translates American names such as "Little Richard" and the answer has to be written in

Spanish. The Puzzles are NOTHING LIKE the traditional puzzle, or the one on the cover. One more thing: This is NOT for Spanish language learners. This is for native Spanish speakers and mostly like I said before: Mexicans. Very disappointing. Spanish: Este libro es mayormente para Mexicanos y personas que hablan el argot Mexicano y conocen la cultura Mexicana intimamente. Los demas no lo podran hacer. Los crucigramas no son los tradicionales o como se pinta en la portada. Este libro es una total decepcion. 0 of 0 people found the following review helpful. It was a gift. My mother-in-law likes it. By Customer It was a gift. My mother-in-law likes it. 0 of 0 people found the following review helpful. Crucigramas By Customer As a learner, I found it difficult, which is good because it got me searching very hard. I like it and review the vocab each day.

No hay nada como los crucigramas para aliviar el estrés, hacer más breve la espera en las antenas, echar a volar la imaginación, agudizar la inteligencia de los niños mientras se divierten y ampliar su vocabulario y su índice cultural despertando su curiosidad. Este libro dividido por especialidades y temas contiene crucigramas de: cine, estrellas de rock, pintura, mujeres célebres, ciencia, técnica, filosofía, música y mucho más
