These coloring pages allowed me to add the color to the elephants which I found very enjoyable. Coloring is something that I have done for many years as a stress reliever. This book offered me many different design types, from simple and basic to complicated. This allowed me to pick how much I needed to color to finish the picture, and calm my person down.2 of 2 people found the following review helpful. Designed creatively!By Samantha BrownI am very pleased with this coloring book. The designs are very beautiful and adding some colors to it, will make it perfect. Coloring books are something my daughter and I enjoyed doing. This is our bonding time. And I can my daughter had an eye for the art. She appreciates the beauty of the zen inspired elephant. I've included here in my review one of our favorite elephant drawings.3 of 3 people found the
