Cat fanciers and coloring enthusiasts will be enchanted with this gallery of original hand drawn designs. I love cats and I was thrilled when I started making this book. You will see cats enchanted by different popular characters from history, books or some, just for fun. Let's name a few: Harry the famous wizard, Jane Austen, Santa, The Mad Hatter, and more. I will let you discover who they are, while you color. If you cannot get it, you have the answer at the back of the page. This book contains more than 20 fully detailed full-page portraits of pretty cats. Relax and de-stress with

this inspiring and calming collection of beautifully drawn cats.
