They are simple enough to not be overwhelming, challenging enough that I'm never bored, and the lines are thick enough to make me feel like I can color quickly and not make many mistakes. It reminds me of a children's coloring book because of the thickness of the lines with all the good stuff of being challenging like adult coloring books offer.My twelve year old was able to color these pages, with no issue. My seven-year-old niece colored the pages well also.Some pages in this book are more challenging than the others. Most of the faces are up close and easier to color but some have a lot more in depth details to them.I love how although I'm just coloring girls, each girl has her own story and that's what makes these my favorite books. Even though I'm just

coloring girls, every girl is different and every detail to the things that are around her to the details of how her hair falls is different. There are 50 different pages to color in this book. All one-sided pages so you can use any kind of medium without worrying about messing up the page on the back. I still advise using another few sheets of paper underneath the one you're coloring in the case of bleed-through. The paper is not as thick as cardstock, but not as thin as normal 20lb computer paper. I would say it's 24-26lb quality paper. I did attach 2 pictures of all the pages that are included in this book. 1 of 1 people found the following review helpful. FabulousBy ToriLynnLove this coloring book. I've used my color pencils, my Spectrum Noir Markers and Sparkle pens, gel pens. Great to fancy cut and add to quote journal, art and daily. Easy to color and cut out. If using markers put craft paper or mixed media paper behind the page you're working on so it doesn't bleed on the next picture. 1 of 1 people found the following review helpful. i love for the fact it has alot of faces to ...By N.Lugoi love for the fact it has alot of faces to color. the only downside is that i wish it had the pages that can be tear out with out damaging the paper its doesnt have the little tearing strip.
