Martin Olson : Encyclopaedia of Hell: An Invasion Manual for Demons Concerning the Planet Earth and the Human Race Which Infests It before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopaedia of Hell: An Invasion Manual for Demons Concerning the Planet Earth and the Human Race Which Infests It:

3 of 3 people found the following review helpful. an encyclopedia with an included story that will keep you readingBy LanoraI like this book because not only is it laid out as an encyclopedia but there was also a Continuing Story. it keeps you entertained and you can look up many of the things if you don't know what they are. It's very creative and I

enjoyed it thoroughly.8 of 8 people found the following review helpful. take thatBy RPFIRST I'm a great lover of GOD and loather of the abuse of divinity and profundity by folks who hate strangers, start wars and take all the booty for themselves in the name of God and fear mongering. I find Olson's book a reaction to them - refreshingly genius, culturally defiant and an astute, humor-filled tonic to the onus of both contemporary living and the "sins" done by true blasphemers. PS its Sears-catalogue cum 1800-1900s news print drawings raise nostalgia to new modern art heights.4 of 4 people found the following review helpful. Hellishly Funny!By NancyNWe bought this book a couple of months ago on the recommendation of a good friend and thoroughly enjoyed it. We also knew immediately upon finishing it that it would make the perfect gift for my partner's dad. So when his birthday approached, we purchased the book and sent it. He called the day it arrived, laughing hysterically, and read to us some of his favorite parts so far. Over the course of the next several days, we received several emails with more quotes of more his favorite parts. We began an nearly-constant exchange of bits from the book. ENCYCLOPAEDIA OF HELL is absolutely brilliant in its sharp observation of humanity, in its artistic presentation, and in its unyielding wit.

A tour de force of darkness, Encyclopaedia of Hell is a manual of Earth written by Lord Satan for his invading hordes of demons, complete with hundreds of unpleasant illustrations, diagrams, and a comprehensive and utterly repulsive dictionary of Earth terms.Since the customs and mores of humanity are alien and inconceivable to demons, Satan wrote this strangely poetic military handbook for the enlightenment and edification of his demon armies. A masterpiece expressing Satan's hatred for humanity and himself, the Encyclopaedia includes "Techniques of Stalking and Eating Humans," "Methods of Canning Human Pus," and "Dicing and Slicing Orphaned Children."Why the invasion? During the last century in particular, Hell has become seriously overcrowded. Satan needs more land mass for the damned and to use the human livestock to feed his hungry demon invaders.Since this book is the 666th commemorative edition, this Encyclopaedia contains special commemorative material.Martin Olson's savage wit provides the firepower for a preposterous literary feat unaccomplished since Mark Twain passed—channeling the real voice of Satan. Over the past fifteen years, Olson has written and produced nine comedy specials, inflicted on the populace via CBS, HBO, Showtime, Cinemax, and AE.

Absolutely one of the funniest books ever. — Lars Ulrich, Metallica
Written by a man whose mind has an extra dimension. — Steven Wright, comedian
Brilliant in the vein of Twain with an air of Voltaire. — Marc Ian Barasch, author
