Joe DeLuca : Episodes From The 19th Hole before purchasing it in order to gage whether or not it would be worth my time, and all praised Episodes From The 19th Hole:

0 of 0 people found the following review helpful. Tee up for a fun read! By Paula Mooney I purchased this book for my husband (since I was a "golf widow" at one time), and ended up reading it before he did! Totally charming and endearing. The author has led an amazing life and enjoyed reminiscing along with him and reading about his escapades. If you enjoy watching "Mad Men" on TV, you will totally relate to Mr. DeLuca's book. I think this book

would make a perfect present for any man, and why not? It's "the greatest game ever played." 0 of 0 people found the following review helpful. A FUN READ!By Lynn DiMennaFor anyone who enjoys golf, gin rummy and an American pop song, this personal memoir would be right up your "green!" Joe DeLuca is a unique character with an artist's eye and musician's ear and a sense of humor to match!

What started out my writing of Episodes was to have a few of my humorous stories printed in a golf magazine but as I wrote three to four it got to be enjoyable to reminisce So I decided to include events that occurred during my eighteen years of playing golf which were amusing interesting and sometimes incredibly hard to believe My golf career had so many exciting happenings many attributed to having as my best friend Dick Stuart the very colorful and popular Major League baseball player Although this book will primarily concern golf because of being so close to Stuart many episodes will contain baseball happenings that should appeal to baseball fans as well Many of these episodes hopefully will amuse the reader but there is an underlying message that author hopes to convey and that is not to have the love of golf interrupt the love of life

About the AuthorJoseph L. DeLuca-Born-May 10, 1929 Married to his current wife Susan. He is the father of three grown daughter's, by his first marriage, and very proud Grandfather of 4 Grandchildren.
