Henry Louis Mencken : Europe After 8:15 before purchasing it in order to gage whether or not it would be worth my time, and all praised Europe After 8:15:

Well worth savoring and pondering over.1 of 2 people found the following review helpful. H.L Has done betterBy Hey MumserMencken has written so many very interesting, sometimes upsetting books that I may have become accustomed to his extremely blunt and controversial writings and expression. "After 8:15" was worth reading but not as attention grabbing as so many other books of his. My admiration, however, for this writer of long past remains....Many of his writings can be read over and over....they are THAT good!
