This is a satirical work of fiction. All interior pages are blank. The author and reviewers are fictitious. From the back cover: "This book will put Democrats on the endangered species list." - Lush Rimbaugh, host of the television talk show The Right is Right "DeSalva has proven that the truth doesn't depend on what the meaning of the word 'is' is." - Senneth Karr, special prosecutor for the Court of Presidential Affairs "More revolutionary than the Declaration of Independence, more expansive than the Louisiana Purchase, and more authoritative than the Constitution." - William N. Prescott, professor of history at Epic University in Cambridge, Massachusetts After a lifetime in the political trenches, Leonard W. DeSalva has written the definitive book on everything Democrats know about good government. He cuts through the fabricated facts, shallow rhetoric, manufactured crises, and empty promises to reveal the shocking truth, including everything Democrats know about issues like: • creating wealth • protecting families • operating within a budget • proving global warming • obeying Constitutional limitations on governmental power (Check out the back cover in all of its satirical glory by clicking on the "Look Inside" button)
