Dr. Janny S. Fleming : Everything Obama Knows About Economics (Blank Book): The Audacity of Blind Hope before purchasing it in order to gage whether or not it would be worth my time, and all praised Everything Obama Knows About Economics (Blank Book): The Audacity of Blind Hope:

0 of 0 people found the following review helpful. What does Obama know??By The BudsterJust put it on your coffee table and watch the faces of those who flip through it. That alone is worth the price of the book.After all, what else is there.0 of 0 people found the following review helpful. Copycat of Mr. Jimmy Moncrief's bookBy Just A ProfessorHey Doc....you were a few months late. Both books are conveying the same message, but Mr. Moncrief does it with much more humor and style. If you really want to know what is inside Obama's mind, then get Mr. Moncrief's original book, Everything Obama Knows About the Economy.Dr. Long, Ph.D.Professor of FinanceP.S. Full disclosure, Mr. Moncrief was a student of mine. Great job Jimmy!

It's profound, brilliantly concise, and all bound within 200 pages. This entirely blank book, has accomplished the unthinkable. With an economy that was shaken in 2008, the nation's new Commander in Chief has brought ground breaking thought and inspiration to a crippled economy. Those ideas and complex strategies are only found in this eloquent book. This rousing work will not only provide satire, but astounding truths to the readers understanding of Obamanomics. What can I say, this book is brilliant.

From the AuthorHaving worked first hand with Obama's economic team, I can say the information found in this book hits the nail on the head. 500 billion dollars and a bankruptcy later, I have firsthand experience with the key foundations found throughout the thesis of this book. -Brian Harison CEO of Solindra
