**Blue Star Coloring, Katie Packer : Exotic Animal Designs: A Stress Relieving Adult Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Exotic Animal Designs: A Stress Relieving Adult Coloring Book:

8 of 8 people found the following review helpful. Lovely and fun to color! By MK9576I am an adult coloring book fanatic and this book has made a nice addition to my stash! The designs are fun and the details allow me to play with lots of color, sometimes I manage to use all the colors in a set! Great fun when tying of new sets of pencils! The designs in his book are one sided and the paper is decent. Not as thick as some, but I haven't had problems with it. The paper takes the colored pencils very well. I've tried out three different colored pencil sets on this book - Ergosoft by Staedtler, Irojiten by Tombow and Lyra Polycolor. So far this has been an enjoyable coloring book and very relaxing! One of my go to books for a first foray with a new set of pencils and also a fun alternate when I'm not playing with Secret Garden, Enchanted Forest or Lost Ocean by Johanna Basford. The paper isn't as high a quality but I seems to

work just fine with my pencils! I love the exotic animals in this book. That's the main reason I picked it and it is fun to pick up at the end of a long workday!2 of 2 people found the following review helpful. To be honest i wasn't expecting to enjoy this, but i didBy sarahTo be honest i wasn't expecting to enjoy this, but i did. I was asked to review this in exchange for a copy of it. I like to doodle and draw but i figured this might not be my thing. I cracked it open and was surprised that two hours had passed. I was rewarded with a really magical creature and my creative center satiated. Downside- i need to go get more color pencils. Great addition to a rainy afternoon.1 of 1 people found the following review helpful. I love this bookBy srl13I love this book! The pictures are whimsical and so much fun to color. The pictures are easier to color than some of the other books that I've purchased. Definitely a plus for these "senior" eyes. Can't wait to see what Blue Star Coloring comes up with next!! Blue Star Coloring sent me a free copy of this book in exchange for posting a review. Thank you Blue Star! :)
