PJ Jones : Exposed! Hillary Clinton's Secret Emails! before purchasing it in order to gage whether or not it would be worth my time, and all praised Exposed! Hillary Clinton's Secret Emails!:

1 of 1 people found the following review helpful. GREAT read!By Lynn DemskyI was only disappointed in this book because I thought it was a book based on fact but it is a FICTIONAL book! The emails were so very typical of

everything the NEWS has been announcing for so long now --- the author has a marvelous sense of humor and I chuckled, smiled and laughed throughout the book but it sure read like it was a real book --- and, that made me sad. Sure felt like there was an awful lot of truth in this book --- good read before the primary's!

This was amusing. It wasn't laugh out loud hysterical, but it had some really funny bits. I really just loved the ludicrousness of her missing emails being so silly. They really were "personal" emails. I liked the fact that they went all the way back to February of 2001 when Hillary emails G.W. Bush and quips that Bill keeps telling her to get a secure server, "Whatever the hell that means." And I loved her signature on every email: Madame Hillary - Former First Lady, Future Ruler of the Universe. Bush's was Mr. W. - Don't Misunderestimate me. I'm sure you can figure out who signed her emails: Laura B. - The New and Improved First Lady. Good stuff!

By JodiI Love PJ Jones. OMG.....I never laughed so hard. If you love parodies and love making fun of politics, then this is your read. I guarantee you will be rolling around on the floor snorting like a pig while reading this.
Job well done PJ Jones. Keep writing and I will keep reading :)
Recommend this book for a great laugh.

Exposed! Hillary Clinton's Secret Emails digs deep into her private correspondence from the time she and her husband left the White House to when someone finally had enough balls to complain she was jeopardizing national security. PJ reassures her readers these emails are the real deal. She got them from the Chinese guy who delivers her take-out, and everyone knows the Chinese are great at three things: sweet and sour pork, math, and hacking computers. Does Hillary get slammed in this parody? Absolutely. But no liberal or conservative is safe. PJ Jones pokes fun of people from both ends of the political spectrum, bringing everyone together for a rip-snorting laugh (although she'll settle for a few smiles and maybe some accidental flatulence). ***Warning*** This book is not intended for... Stupid people. Not pointing any fingers (Jonathan Gruber). People with weak hearts, stomachs, or bladders. People with politically correct yardsticks wedged up their asses. This book is intended for... People who live in Colorado and like brownies. People with a crude and outrageous sense of humor. People who think apathetic and corrupt politicians are a joke.
