First, the illustrations range from simple to complex, but you can make them as complex as you wish, depending on shading, color choice, etc. Secondly, it is extremely forgiving. I love using markers in this book. It will take all types, alcohol-based, watercolor based, India ink, and whatever else you can think of and will not bleed through to the next page, although I always do put up blotter paper behind it just to be safe, although it's never been necessary. Markers to not bleed outside the lines. The metallic backgrounds repel any mistakes you might make in coloring over the lines and also just make for a beautiful finish. And no matter what color choices I've made or mistakes I have done, the outcomes still are extremely beautiful.I have removed pages from this book and kept pages in. I've had no problems with the binding being too loose or pages falling out. Perhaps I've gotten really lucky with that.All in all, although I have way too many coloring books, this is my favorite go to when I want to feel like I've created something beautiful and I know I can make mistakes and still be OK. Considering the price, the quality of the paper and the beautiful designs, which you can either keep in or take out, I feel that it was absolutely worth the money. I have purchased other coloring books which were not that much less expensive and have been disappointed in the paper quality or the designs. I'm just waiting for the next release by this artist.1 of 1 people found the following review helpful. Interesting and Different but SimpleBy Margaret FergusonCompared to the artists companion book "Magic Garden", this book has much more detail. Although I have

to say, it is still rather simplistic, but the paper quality is excellent as is the very interesting metallic colored background pages. I colored a few pages and find the book attractive and worth keeping. 1 of 1 people found the following review helpful. Nice book of floral pictures- very large print pictures. By SAMNice well designed color book with lots of floral designs. The pages are really thick so there is no need to tear them out to color the page. Each page is trimmed in a gold-like or silver- like outline. I think with this book I'm over my need for any more floral design books since there are so many in this book. It was a little pricey as I try to stick with the under \$10 range for these books, but it's so beautiful I could not resist. I only wish the pictures were a little smaller, they are huge floral designs so you will need larger diameter markers unless you want to color the same area with a fine point for 10 or more minutes.

Exquisitely packaged in a big, square format, with exposed-boards, eye-catching fluorescent covers, top-, side-, and bottom-stain, and three different colors of metallic-ink paper, this all new adult coloring book contains 60 designs, ready to be colored with pencil, pen, or paint. The designs are printed on heavy-stock paper covered with one of three different colors of metallic ink. The pages are easily removable so any artist will be able to display his or her work. These high-quality, high-style books are a must have for anyone who loves beautiful design and uniquely-crafted objects.
