Gets my teenager "unplugged" and fights off technology induced boredom (Mom-1, Technology-0).By TammyI bought this to put in my teenage daughter's Easter basket. I hadn't seen these before and since she enjoys adult coloring books, I thought why not adult dot-to-dots as well? Let's face it, teenage Easter baskets are not easy to fill.If you are not familiar with these extreme dot-to-dots, let me tell you, they ARE extreme. This book contains 42 different connect-the-dots, and some of them have numbers that go up in the thousands. The numbers are quite small and some are printed lighter so if you have trouble reading fine print, these may be hard to see. I suggest using a ruler or straightedge for precise lines and doing it in PENCIL. The first one, my daughter tried to do with gel pens. She wanted certain parts of the structure in specific colors, but she messed up. The

next number isn't always where you might expect it to be. She quickly learned that a fine mechanical pencil (she uses a .5 mm) works best. The paper in this book is a nice, heavy weight, not quite cardstock, but definitely thicker than your average puzzle book or plain paper. It also has perforated pages so you can easily remove them. The back of each page has a few clues for the next famous place. Some you can tell by the position of the numbers, but some you can't. There is an "answer key" in the back of the book showing each dot-to-dot completed so you can choose what place you want to do if you don't want to be surprised. These are a lot of fun and provide a good distraction for relaxing or stress relief. Like any good puzzle, they are great for relieving boredom, a common symptom of the technology overloaded teen. My daughter is enjoying this pastime and anything that keeps her "unplugged" is a win in my book. 5 of 5 people found the following review helpful. Awesome fun! By Martinelis M. Absolutely loved it! So much fun and lots of time spent on just one page. It has a bit of pages but because it has a lot of dots to connect on one page u wont be done in a matter of days like u might think. Im loving this purchase! 2 of 2 people found the following review helpful. But these pictures make me feel like I really did something By Pam Very detailed and makes you look for the number. I have to use cheap reading glasses. But these pictures make me feel like I really did something. I cannot do one page in a day. I had a stroke and it affected my short term memory. I didn't think this would help but it has. It helps me when I get nervous or depressed I get one of my books out and it gets me back to feeling better.
