**Richard Benson : F for Effort: More of the Very Best Totally Wrong Test Answers** before purchasing it in order to gage whether or not it would be worth my time, and all praised F for Effort: More of the Very Best Totally Wrong Test Answers:

1 of 1 people found the following review helpful. And suddenly... your child looks like the valedictorian! By A grain of salt I always try to give a little something extra when I make up gift bags for my child's teachers. Sure, I give gift cards (who doesn't love gift cards??) to Starbucks, Target, Visa, etc. And usually something to drink (who doesn't need a little relaxation after dealing with 20, hormonal, middle schoolers? I do, just thinking about it!). And I always do a theme: spa (candles, bath bombs, a relaxation CD, chocolate, prosecco); summer break (sun tan lotion, beach towel,

gossip mags, funny sunglasses, munchies), etc. But even at our private school, where "activity fees" supposedly cover all pencils, crayons, paper, folders, etc for the classroom, my oldest's teacher had to send out a request for classroom supplies as her belated "Back to School" gift (if we were so inclined to give one). First of all, how could I NOT give a gift to a woman who spends at least the same amount of time (if not more!) every week with my child? And loves my kiddo? And is just as active in helping to form my child into a future, positive, contributing member of society? Done and done. But I didn't just want to give a "gift" full of kleenex, sanitizing wipes, mini candy bars for her reward box, and dry-erase markers. I wanted to both adhere to her wishes, AND give her a little something for herself to show her how much she was appreciated. Beyond the aforementioned gift cards... So keeping with my obsessive need for themes - I scoured for classroom-related gifts. Ignored anything to do with apples. Or "world's best" (even if I agree!). And then I came across several books, guaranteed to make teachers nod in agreement, laugh, and thank their lucky stars that their class isn't as bad as it could be! This book hit that exact spot. The recipient (and I - when I browsed it), got a kick out of this compilation. 2 of 2 people found the following review helpful. Very Funny Light Reading By Dee N Full of very funny (if you understand why) answers that are totally wrong! Just light reading while waiting for the doctor or perhaps for placement in the bathroom. People are very creative when they have no idea what the answers are, but still want to get some credit! 0 of 0 people found the following review helpful. Hysterical By Frank L. Urbano I can't say much about this book except that it is completely hysterical. You will laugh again and again as you read it. It can also serve as a topic of conversation when having get-togethers with family or friends. My favorite question / answer combo in the book? QUESTION : "Name one advantage that sexual reproduction has over asexual reproduction". ANSWER " "It feels good." "I think that about says it all!

From the author of the national bestseller *F in Exams* comes a brand new compendium of hilarious and inventive wrong test answers and homework hiccups. Featuring gems from elementary school ("two halves make a whale"), middle grades (Q: What does "germinate" mean? A: To become a German citizen), and high school (Q: Fossil fuels are usually associated with which major type of rock? A: Classic rock), these 250 examples of creative invention are sure to charm anyone who has had to bluff or blunder their way through a test.

About the Author Richard Benson is the author of *F in Exams* and several other humor books. He lives in London.
