The answers seem more from grade school students rather than older students. But, most of them did bring a smile (rather than a laugh) to my face.0 of 0 people found the following review helpful. Hilarious and Awesome Gift!By DxeFlyerBought this for my daughter's tutor. She and

her son (my daughter's age) loved it! She said they read this book for hours laughing their heads off! Perfect purchase! 0 of 0 people found the following review helpful. So funny! By Xine Found this at Kneaders Bakery. Skimmed it during lunch and had to buy it. Best end of year teacher gift. I will buy more--each year until the kids graduate, I think.

Will some students ever learn from their mistakes? We hope not! This all-new collection of hilarious, totally wrong, real test answers serves a fresh batch of A+ wit misapplied to F- quiz scores. A little studying would reveal that the most powerful light source known to man isn't "lightsabers," nor do we salt the roads when it snows "to make them taste better." But where's the fun in that? From the same wellspring of failure as the million-selling F in Exams series, this special pop quiz collection will amuse and entertain anyone preparing to face down a test paper as well as those just glad to be far away from a classroom.

About the Author Richard Benson is the author of the F in Exams series and several other humor books. He lives in London.
