Very clever!0 of 0 people found the following review helpful. funny but not hystericalBy Ly GIIt made me laugh, not as much as the website, but it is portable and I don't have to worry about a WiFi signal. Plus I can share it easily. I like the set-up like a travel book, its a cute idea to make a gift-book more fun.2 of 2 people found the following review helpful. Good for the bathroom...and that's pretty much it...By DavidIf you've ever been on the website failblog.org, then you don't need this book. It's a collection of some of the materials they have there. But it's a really bad collection. It's not even their funniest stuff. Save yourself \$10 and just go online to their website.It's not bad for a short bathroom read. But that's about it. The bathroom's where this book belongs.

From the underbelly of the nuts behind hit websites failblog.org and icanhascheezburger.com comes FAIL Nation, your silent guide and handler to the not-even-close-to-perfect nation of FAIL, chock-full of irrelevant tips and useless suggestions about why to shop, who to eat, and when to see. So fasten your exit and check for the nearest seatbelt—your FAIL plane departs now.
