Perfect for a kid who has a short attention span and doesn't enjoy stories that are carefully wrapped up in a neat package. These feel off-the-cuff and spontaneous.0 of 0 people found the following review helpful. Funny, Funny and Funny!By JanetteThis is a fantastic book. I laughed out loud when I read it to myself, and the children I have read it to laughed even louder. A blend of modern and classic

references keeps the humor going, the drawings are wonderful. Never speaks "down" to kids. I recommend it and am sending it to my various great nieces and nephews this Christmas!0 of 0 people found the following review helpful. Dinosaurs with tiaras...what more could you ask for? Greedy guts.By Daniela DaviesBy far one of the best children's books we own. On par with such classics as Cat in the Hat and Where the Wild Things Are and so on. An awesome twist on the typical fairy tales that are outdated and down right boring at times. Great morals and fun and easy to read for tired parents that need a little extra help in the creativity dept. The art is very fun and engaging, (lots to look at and find on the umpteenth reading. READ IT AGAIN MOM!!!) The subject matter is very relevant to the interest of all ages 2 to 32. I mean dinosaurs with tiaras...what more could you ask for? Greedy guts.

All the beloved fairytale classics are kinda... broken. I mean, they don't have ANY Dinosaurs, Robots, Zombies or Space Aliens in them. I don't know what those guys from olden days were thinking. So! I took all those cherished children's stories, added some crazyness, and vastly improved them! Probably! Fairy Tales I Just Made Up is jam-packed with weirdo fun, including The Dumbest Love Story Ever, Magical-Science, and Bacon Helicopters.
