Lela Davidson : Faking Balance: Adventures in Work and Life before purchasing it in order to gage whether or not it would be worth my time, and all praised Faking Balance: Adventures in Work and Life:

1 of 1 people found the following review helpful. Faking Balance is a great read for any woman who works to find ever-elusive ...By Sarah SwoffordI tore through this collection of essays on motherhood, professional life, cross-country moves, and finding ways to make it all work, by Lela Davidson. With quirky humor throughout, Faking

Balance is a great read for any woman who works to find ever-elusive balance in her life. Davidson's personal essays show the bravery of reinvention. For me, a mom of two young kids, this read was inspiring. It showed that there is no one way to professional satisfaction and good parenting, you just do your best. Davidson is unafraid of change and reinvention herself, and that is an inspiration to any mom. Plus, as a writer, I really enjoyed reading about her journey as a writer, and would like to read more. It would make a great follow-up book. 0 of 0 people found the following review helpful. I just finished reading my friend Lela Davidson's newest book ...By JenniferI just finished reading my friend Lela Davidson's newest book *Faking Balance: Adventures in Work and Life*. Her humor and sentimental musings are spot on, I think she has been spying on my life. Friends, if you're looking for a new fall read buy her book. And no, she did not bribe me with wine to write this post. Way to go Lela! 0 of 0 people found the following review helpful. I loved every page of her newest book and recommend *Faking ...*By Mom of the brothers 3Taking the time to read *Faking Balance* was my treat to myself. I found myself laughing and sometimes feeling sentimental at Ms. Davidson's insights into the life of the modern mom. I loved every page of her newest book and recommend *Faking Balance*.

While others are busy leaning in or maxing out, Lela Davidson just keeps making spreadsheets. From fast track to mommy track to yoga-panted freelancer and back again, she has been all kinds of working mother. Whether she's on a pumping break or encouraging her teenagers to pump the brakes on romance, Davidson has a talent for uncovering the humor in everyday family life. In this collection of tender, touching, and funny essays, Davidson delights readers with stories about the choices working mothers face every day. Through her own journey into and out of the workforce, she inspires us all to celebrate the smallest wins and laugh off the rest-because in the quest for work life balance, we're all faking it.
