before purchasing it in order to gage whether or not it would be worth my time, and all praised Fantastic Structures: A Coloring Book of Amazing Buildings Real and Imagined:

In this eagerly awaited follow-up to the international bestseller *Fantastic Cities*, artist Steve McDonald uses his unique large-format approach working from actual photographs to create beautifully detailed line drawings of amazing buildings and other structures from around the world. The globe-trotting selection includes buildings from six continents—including Prague's Astronomical Clock, Russia's St. Basil's Cathedral, a Florentine bridge, a Romanian castle, an Indian palace, and many dozens more—alongside fun-to-color details from iconic structures such as the Eiffel Tower, London's Tower Bridge, and the Chrysler Building. The crisp white pages are conducive to a range of applications, and a middle margin keeps all the artwork fully colorable. A dozen imaginative architectural mandala illustrations round out this gorgeous adult coloring book.
