Coloring Pages for Kids : Farting Animals Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Farting Animals Coloring Book:

Farting Animals Coloring Book is hilarious and stinky! Children build on their confidence, creativity skills, motor skills and dexterity when they pick colors and color inside the line. Boring is out, and fun and exciting topics are in. Keep children engaged and out of your hair, as you take care of house work and get things done. Laugh yourself silly while you color different animals as they fart and pollute the air. An excellent gag or funny gift for any occasion.
