I am interested in phobias and thought this would be a fun gift, but when it arrived i saw that the pictures looked like they were copied and pasted from the internet! The definition is directly over the drawing so it looks terrible! Over all this was a interesting idea but poorly made. I am disappointed in my decision to buy this.

Chromophobia is a persistent, irrational fear of, or aversion to, colors and is usually a conditioned response. Bibliophobia is a fear, hatred, or phobia of books. And FEAR NOT is an awesome new adult coloring book that explores phobias of all kinds. Over 90 phobias coloring pages. So grab your crayons, gel pens, and colored pencils...and embrace your fears.
