Jules Feiffer : FEIFFER: J.FEIFFER AMER before purchasing it in order to gage whether or not it would be worth my time, and all praised FEIFFER: J.FEIFFER AMER:

2 of 2 people found the following review helpful. An Artist Who Spans the Most Important Times of My LifeBy Pop BopThere are a lot of great and important comic voices that are fading from memory - Lenny Bruce, Mort Sahl, Dick Gregory. I guess if I were old enough I could also miss Will Rogers or Mark Twain. But for those of us of a certain age, Eisenhower to Reagan will serve perfectly well as bookmarks, and Jules Feiffer - gentle, angry, incisive, sympathetic, hopeful, urbane Jules Feiffer - will serve perfectly well as a guide and interpreter. This is a tremendous collection, and while reading it, (and remembering when the pieces were brand new), might be a bit on the melancholy side of the scale now, it is a diary worth returning to.8 of 8 people found the following review helpful. Modern history, recorded as it happened.By wiredweirdJules Feiffer is best known for his long-running cartoons in The Village Voice. Once a week, he would target racism (both the people for and against), religion (ditto), bohemian artistry (ditto), or the tribulations of modern life. Or, as shown here, presidents and politics.This is a collection of his cartoons, spanning nearly 30 years. It's organized chronologically by president, an organization that itself carries information. From the complacency of the 50s, when "leisure" was a problem, through Viet Nam and most of the Cold War, up to Reagan's Movie America, this is almost a chronicle of American neuroses.His cartoons of kids may be the most pointed. In some (p.187, for example), Feiffer digs at parental callousness and irresponsibility. In others, the unfortunate little ones are shown contorting themselves into blatantly ridiculous patterns of adult reasoning. In others (e.g. both on p.63) the child seems to be the one sane point in a world where sanity is not an asset.These cartoons express ideas that are

probably important to you. Maybe they echo your own beliefs, maybe they present the opposition - either way, they're important.//wiredweird

A giant retrospective collection from one of our funniest - and most profound - contemporary humorists. Covers some of the best political cartoons:From Eisenhower to Ronald Reagan.
