Sylvia R Apple : Fergus: Memoirs of a Scottish Terrier: A Country Life with Crazy Human Companions
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fergus: Memoirs of a Scottish Terrier: A Country Life with Crazy Human Companions:

2 of 2 people found the following review helpful. A different point of view By John D. Swisher A delightful easy read

that families with pets will enjoy reliving their own similar times as their dogs or other pets saw them. Fergus was indeed a great name for a Scottish terrier. He also was Scotland's terrorist whose job it was to protect "Mom" and "Dad". Point of view is always a challenge for a writer and Fergus' point of view was delightful to experience. Memoirs are seldom interesting to anyone outside a small group of the involved people. However, seeing this family's life through the eyes of a spunky terrier made every adventure come to life. We all have shared many of the adventures that Fergus encounters but never have looked at them from that close to the ground. Read it for yourself and laugh at yourself. 0 of 0 people found the following review helpful. Fergus: Two fantastic books By DAVE M. Heartwarming, so relatable to any animal lover! From the canine viewpoint it's specially enjoyable. Oh, what out pets perceive, unknown to us. "Holiday Tales..." is particularly touching. Both books, must reads! 3 of 3 people found the following review helpful. One of a Kind By RG This is an idea I wish I had come up with. Writing a book from the do's perspective. Would highly recommend this to all dog lovers.

This book examines the trials and tribulations of living with two eccentric humans who continually get in to trouble, at least from a canine point of view.

About the Author Sylvia is an artist living in Centre County, Pennsylvania. She has written poetry and articles over the last 30 years. This is the first time she has "channeled" a dog to write a book. Fergus was her canine companion for over ten years.
