Took me a couple hours to go through the book, I read every story, saw every picture in detail, admired the compositions, loved Momo's hiding skills, and didn't have to use the answer key even once.It is a delightful book with amazing photographs; finding Momo goes from easy to hard very quickly; the back stories are lovely; the behind-the-scenes stories are sweet; and Momo is simply an adorable dog that you just want to give belly rubs to!As a dog-lover, photography enthusiast, and Instagrammer, this book is an absolute treat. If you don't own a copy, go get one NOW! Thank you, Andrew Momo, for a wonderful journey through your adventures! It's a delight!!!2 of 2 people found the following review helpful. Great gift for dog lovers, little childrenBy Adam P.Heard about this project on the internet, saw images of Momo on Instagram and thought it only made sense to support this work. Great for dog lovers and especially interesting for little kids (think Where's Waldo, where Waldo is replaced with a border collie).1 of 1 people found the following review helpful. She likes it, and she works to find the dog, but honestly my brother and I spent more time looking at the book than she did. While it is reminiscent of Where's Waldo, I think that the book is quite suitable for adults, and

entertaining.

The result is a book of spectacular photography that's also a game you can play anytime. Lose yourself in page after page of Andrew's beautiful, serene, dreamlike images, and sooner or later you'll find Momo's sweet, eager face looking back at you. (Can't find him? Don't worry...the answers are in the back.)
