**Ben Nesvig : First World Problems: 101 Reasons Why The Terrorists Hate Us** before purchasing it in order to gage whether or not it would be worth my time, and all praised First World Problems: 101 Reasons Why The Terrorists Hate Us:

With the food issues and the annoyance with hotel beds I found myself cracking up and wanting to share with friends.Ben's sarcastic tone a-la

David Sedaris was refreshing to read. I usually read more crime thrillers and this book was a welcome change to the books I usually read. Thanks for a great read and for making me feel better about all the times I complain about my iPhone battery dying and my iced tea being too caffeinated and all the other first world problems I complain about ruining my life! 2 of 2 people found the following review helpful. Laugh Your (insert body part) Off By Peggy Wolf Review from November 12, 2012: If you believe laughter is the best medicine then this book will cause a serious overdose. Ben Hesevig has problems, serious problems - First World problems; but he has no problem sharing them with you. Just the praise on the back of the book is worth the price of the book. Review from February 15, 2013: Buy Ben Hesevig's new and improved First World Problems today, like right now, so you can bring on the laughter pronto. I guarantee that none of the "funny" has been extracted from the first edition. Thanks to a new eagle eye editor, the typos and other irritating mistakes have been axed placing this book right up there next to perfection. 3 of 3 people found the following review helpful. Couldn't stop laughing By Measy My husband downloaded a sample of this book then kept me awake laughing. After downloading the rest, he has kept me up every night this week (yes, a First World problem Ben forgot to mention...) so I had to give it a read myself. All I have to say is now I'm the one keeping him awake. Great book and a must read for anyone who is reading this!

You are reading this on a screen. You have First World Problems.

About the Author Ben Hesevig is a human, an author (obviously), and locally renowned bacon chef. Ben currently resides in Minneapolis, where he complains about the weather being either too hot or too cold.
