If you click on the Artist name it will take you to their page here on and there's a full video flip through of the book! The book is 8 3/4 x 11 and the paper is thin Trade Stock or Create Space paper. This paper is workable. Colored pencils with a hard lead do well. I use Polychromo's. I put up with this because it's part of the system that exposes us to Artists work we would never see.And the illustrations are Beautiful! The dresses flow! The designs on them fit the flow of the dress! And there are no faces to color! The artist solution to no faces in so whimsical! Also the models when their walking look natural not stiff! I have a lot of fashion coloring books and very few artist manage to make their models look natural when their walking! I love this book! I hope she does more books.0 of 0 people found the following review helpful. Every page is greatBy billI love it!
