By Jackie Cooper Pamela Duarte has taken both common and uncommon flowers, out of the garden, out of the fields, and out of their vases, arranged them in balanced, circular form with simple artistic backgrounds that highlight each blossoms unique beauty, together the combinations bring us captivating illustrations that will inspire you and once you add color will be worthy of framing. I love coloring flowers with Crayola watercolor pencils and Prismacolor soft core pencils so that I can use color pencil techniques on the blossoms and leaves, plus I love coloring mandalas, so I especially love this unique coloring book that brings the two together. I love every single illustration in this book. So Excited! Perfect for flower lovers of all ages, this is the perfect book to add to your coloring collection. 1. 30 Illustrations printed one per page (The back of each page is blank) on

Lightweight, bright white paper². In each illustration, at the bottom of the page in the left hand corner is the name of the flower used in that illustration.³ All Markers and some Gel Pens that I tested leaked through the pages, so if you use markers place two pieces of paper under the page you are coloring and leave it there until it is dry.⁴ These images are perfect for colored pencils, watercolor pencils or markers and a few of the images crayons and a few Gel Pens.⁵ Each illustration is approximately 6 ¾ inches, in circular form, centered on each page.⁶ Illustrations include the following flowers: Peruvian Lilly, Angels Trumpet, Bougainvillea, African Ice Plant, Clivia, Cyclamen, Cymbidium Orchid, Dahlia, Gazania, Hibiscus, Knights Star Lilly, Hyacinth, Hydrangea, African Corn Lily, Lotus, Lupine, Magnolia, Marguerite Daisy, Moon Flower, Moraea, Daffodil, Nasturtium, Passion Flower, Rose, Harlequin Flower, Sunflower, Tulip, Forest Lily, Water lily, Zinnia,⁰ of 0 people found the following review helpful.
