**Pamela Duarte : Flower Patterns Coloring Book, Volume 2** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flower Patterns Coloring Book, Volume 2:

0 of 0 people found the following review helpful. 5 star book!!!By Jennifer S. [[VIDEOID:9e340ef3b23062f11c860e70a495de6d]] A stunner of a book! Flower Patterns Volume 2 is a beautifully done coloring book filled with stunning flowers, butterflies, and patterns. This book would make a wonderful gift for anyone. I would recommend this book to all ages and skill levels. The pages are single sided and none of the images run into the seams. Ive included a video for you to see how pretty it is. Definitely 5 stars!0 of 0 people found the following review helpful. Lovely BookBy CustomerI won this book in a contest and I love. It is single sided. Paper is good. It also has 2 of each picture which I really like. I don't have to make copies. I will be buying more of her books0 of 1 people found the following review helpful. Beautiful Flower Patterns coloring bookBy Jane AI received this book by the author for an honest review. I own all of Pamela's coloring books and they're so beautiful.This book is as

beautiful as all of her other books. There are 2 of each designs and one-sided, perfect for marker users like me.

A celebration of flowers! This book contains thirty different flower patterns each printed twice for a total of sixty patterns. Some of the patterns are inspired by the backgrounds in my previous book, "Flowers Fashion: Women of the World Coloring Book" and many are different. I have tried to make each piece separate and individual for use in coloring or other craft projects but the unifying theme is the beauty of flowers in all of their shapes and sizes. Relax, have fun, and tap into your creativity!

About the Author Pamela Duarte was born in Los Angeles received a BFA from Art Center College of Design.
