HallettThese are beautiful images, totally ruined for me because the artist chose to write her name and copyright information in the middle of every image. Because this is a bound book, there is no need for this on every page. While there is a copyright statement at the beginning of the book, as there should be, it's obvious the author doesn't actually understand copyrights. She references the U.S. Copyright Act of 1976, but fails to understand that her statement is not totally

factual. It is permissible to scan/copy as long as it is only for our own personal use. I have hundreds of copyrights on my own products, so I do understand. Anyway, because the images are beautiful, I chose not to return the book. Instead, I used liquid paper to cover up the name/copyright on every page. It only took 2 hours. Then, I scanned them into a PDF file so that I can print them on my paper of choice. I go between pencils and markers, and no one paper is best for both ... and I also don't have to complain about the paper in the actual book, which reminds me of the coloring books from my childhood. I should probably note that when I print these, I also will print the artist's information on the back of every page. Because of my own artistic endeavors, I always make sure to credit any/every artist as necessary. But, their names will not show up on my creations, just as I don't require my customers to emblazon my name on their creations. I probably won't purchase any more of her books unless she stops acting like an amateur. 2 of 2 people found the following review helpful. Beautiful, beautiful, beautiful!!! By Michelle the Colorist This has quickly become one of my favorite coloring books. The images are so gorgeous that I can't even do them justice in this description. Paper quality is excellent and images are only printed one per page so markers and such should work perfectly. I will be looking for more books from this illustrator...

The feedback we hear most often is, "Wow, this was fun to color!". 24 Full Size, single-sided pages, PLUS 24 crafter size (5" x 7", single-sided, 2 on a page), perfect for cutting out and framing, mounting to a greeting card, or using on a scrapbooking page. We recommend using a dry medium like colored pencils, though an instruction page is given so colorists know what to expect when they choose to color with wet mediums which may bleed through the paper (such as Markers and Gel Pens); and blotter/color test pages are provided at the back of the book for this purpose.
