I've never laughed so hard!By A CustomerFor those who didn't enjoy this book, I have no answer. I guess it is not for everyone. I never saw the original cheese edition of Might Magazine, and now I wish I had. This book is so funny, so hilarious that I cried with howling laughter flipping through it. There are all sorts of categories (going out on a date cheese, girl cheese, boy cheese, work cheese, hip hop cheese, rock cheese, etc, etc.) and subsequent lists of all things inherently cheesy in those categories. I don't know what else to say except that this book is a treasure in my collection and a great conversation piece!

Might Magazine, the brightest and sharpest new magazine of the '90s, presents a hilarious and loving look at the cheesiest stuff in America. From rotating restaurants to rotating spice racks, from laser shows to demolition derbys, from space travel to theme songs to bendy straws to clown bashing, it's all here--a celebration of all things cheesy.
