Kelli Dunham : Freak of Nurture before purchasing it in order to gage whether or not it would be worth my time, and all praised Freak of Nurture:

1 of 1 people found the following review helpful. Love Kelli DunhamBy K. FinHilarious and heart-felt. Love Kelli Dunham.0 of 0 people found the following review helpful. Five StarsBy Christine pVery enjoyable2 of 2 people found the following review helpful. Touching, honest hilarious!By Stephanie Schroeder"Freak of Nurture" is funny,

touching, and extremely honest. Kelli Dunham writes about growing up in an alcoholic family, volunteering in Haiti, spending time as a nun, sex, love, sex, nursing school, sex, and dealing with grief. She writes as well about finding an audience -- and understanding -- in unlikely places. Dunham possesses the compassion and charity, but not the self-hatred, she brings from her time with the Missionaries of Charity, a Roman Catholic religious order founded by Mother Teresa, to this collection of stories and essays. Dunham has a unique point of view and, in these tough economic and political times, her humor is a welcome reprieve.

Kelli Dunham demonstrates that comedy and chaos reign when you combine a great sense of humor with a determination to make bad ideas a fantastic reality. Whether she is hitchhiking across Haiti to help out with disaster relief or volunteering at a convention full of 7,000 screaming Sarah Palin fans, her humorous interpretation of difficult situations is both inspiring and entertaining. In the tradition of authors such as David Sedaris and Ellen DeGeneres, these slice of life stories remind us that even though humans are deeply flawed, we're also pretty funny that way.
