big Friend's fan. It is very small, but I expected that reading other reviews. It's a very cute little gift "stuffer" (would be
great in a stocking). It has very nice pictures and famous quotes from the tv show. Even though it is small, it's very
easy to read the quotes on the pages.The only thing I didn't like about it is that it was hard to handle. There is a cover
on it, which with the book being so small, it was hard to hold it on there while looking at the book.0 of 0 people found

I would've never paid that much for it It's basically a picture on one side of the book and a quote from the show on the other, definitely not what I was expecting.0 of 0 people found the following review helpful. This is an awesome and super cute gift bookBy Isabella W.This is an awesome and super cute gift book! I read the reviews, so I knew it was mini sized. I gave it to my best friend for her birthday and she loved it so much I bought one for myself. It has all the best photos and quotes from the show and funny headlines. I can just flip to a page and relive my favorite Friends moments. It's also perfectly sized for my desk at work and a great conversation piece!
