LewisThis is a small book with various types of cats each with its preferred firearm (no edged weapons). It was purchased on a whim and it is worth the money spent. There are small (ca. 2-4 sentence) descriptions of the cat and its weapon of choice. Mine apparently likes AKs too. Presentation is quite nice overall and amusing.0 of 0 people found the following review helpful. Five StarsBy John R McKinney IIIIronically this book helped us identify the breed of a cat we adopted.1 of 1 people found the following review helpful. 'merica!By Rebekah DCats, guns- read this book with some nacho cheese dip and beer in a can, only downside is that it could use more cats and more guns.. Pew, Pew!

CUTE KITTENSPURRING GUNS From SPAS-12-toting Siamese and AK-47-flashing Norwegian Forest Cat to Colt 45-carrying Tonkinese and a Beretta-brandishing Russian Blue, this book exposes with pictures the shocking love affair between furry felines and high-powered firearms.Many secret habits of felines have previously been revealed, including their motivations for painting, the stuff they wear, and their laugh-out-loud language. But until now, no book has dared explore the shadowy world of armed-to-the-teeth kittens described and pictured in "From My Cold Dead Paws." Like strawberries and cream, hot dogs and baseball, apple pie and illegal fireworks, cats and guns make perfect

partners. From Colt 45 carrying calico and Glock-toting tabby to Uzi-brandishing Siamese and AKSU-flashing Siberian, this book presents the shocking intersection of America's love affairs with cuddly pets and purring guns. A photographic celebration of the independent nature of cats, "From My Cold Dead Paws" offers full descriptions of each breed and gun, including color, coat type, pattern, caliber, barrel length, and muzzle velocity. Adding to the readers' enjoyment is a dynamic, full-color design with guns, bullets, and targets firing all over the pages."
