Hope he gets a few giggles out of it!0 of 0 people found the following review helpful. Cute but not

much substance

I enjoyed the book and there was the occasional chuckle but given that the "anecdotes" were seldom more than a few sentences, this isn't the kind of book you're likely to remember with much clarity. Read it if you need a break from something heavy but don't expect to learn much new about the pros in it.
