But the cover does not do it justice. I never thought I would like a book that was pictures of crabs. But this has some of the most beautiful pictures of crabs and lobsters I have seen. Truly a talented artist.0 of 0 people found the following review helpful. Cheap paper. Not worth the

price. By Cylara For an expensive coloring book it is made very very cheaply. The paper and ink feel like it is just printer paper from a home computer. For this price you can get way better quality books. Don't waste your money even if you love crabbies like I.2 of 2 people found the following review helpful. REISSUE... Show Us Designs BEFORE We Buy #1024... By classicsGGma REISSUE... IF YOU HAVE: World of Crabs: Relax with our 20 Patterns by Emily Macht... THEN YOU HAVE This color book. Cover's he same, title's been changed a bit and the author name is now with a group. Seeing many of these duplicate reissues lately. Covers are usually, but not always, the same, though the background colors can be different. Titles may be reworded or completely different and author names are usually, but not always, the same, some with letters added/subtracted, though still pronounced the same. Some author names are now part of a group. Please check your coloring books carefully before getting them.
