It is the perfect size for what I am using it for (a decoration underneath my computer monitor) but if you are looking for something large heavy like a bookend I would not recommend it.1 of 1 people found the following review helpful. Excellent mini-book and sculpt setBy J.m.V.Excellent mini-book and sculpt set. The direwolf is surprisingly heavy. Perhaps not quite heavy enough for a bookend shelf spacer for large paperbacks. A nice stocking stuffer gift.2 of 2 people found the following review helpful. Desk DirewolfBy maplesugarGift for my niece, she loved it. Heavy and well made, and has a little book about the Starks. Adorable!

The direwolf, a large creature of the north, is the sigil of House Stark. Stone statues in the image of the direwolf flank the entrance to the crypt at Winterfell and have remained there as faithful guardians for generations.
