A light-hearted collection of fun games!By Reader from EuropeReading this collection of fun games almost make me feel sad that I left the corporate world! Every now and then incorporating these games in a meeting would have made life more bearable, and - a very big plus- you would have got to know your colleagues so much better! I will now keep this book on my Kindle for family get-togethers, and have already spotted various games which sound terribly exciting and fun to play!0 of 0 people found the following review helpful. Entertaining and wittyBy R. LukeThese games are hysterical! I love the creativity of each of the games. The author's sense of humor through his commentaries added even more fun. I have to admit I love the Time Passer games the most, which will help anyone get through a long meeting with annoying co-workers! I also loved the Bloated Ego Bingo and Name That Dog- I will never look at my co-workers the same! Loved the Yoda Talk game when you just have to blow off some steam. Great collection of fun and creative activities to keep you entertained.0 of 0 people found the following review helpful.
