I'm now longing to re-explore things that I used to enjoy in my younger days. Garfield is most decidedly in this category. As an adult, I've come to realize how much more I can appreciate a book if I take my time with it. This is true of comics, as well. (Only, now I have to put on my reading glasses.)Obviously, any Garfield fan (...or Odie fan, or Nermal fan, et.c.) would love having this book. What makes it all the more enjoyable, is that it's not just one of Jim Davis' book compilations of his syndicated, published work - it's actually three books combined into one volume. It's intentionally priced to be a major cost saving for the economy conscientious!For myself, this is a chance to pick up a book and re-acquaint myself with an old friend named Garfield. He's truly a timeless comic. Good, clean fun for the whole family.0 of 0 people found the following review helpful. Three StarsBy David H.Fun book to complete my collection.1 of 1 people found the following review helpful. Beware this Down-Sized, El-Cheapo versionBy D. A CampbellWarning, this is an el-cheapo, small-sized version of the full-size Fat Cat 3-Pack series of Garfield books. Cheap paper, no color inside, about half the dimension of the regular book, etc. Just got mine today and will be sending it back to tomorrow! Garfield could never be down-sized, so why did they down-size this book!?

Whether it's nap time in a bread pan, or a short walk through a warm pizza, go with Garfield the cat as he eats his way through three collections of fun.
