**John Wik : GeoMandala 2: The Second Coloring Book of Geometric Mandala Designs** before purchasing it in order to gauge whether or not it would be worth my time, and all praised GeoMandala 2: The Second Coloring Book of Geometric Mandala Designs:

4 of 4 people found the following review helpful. GeoMandala 2: The Second Coloring Book of Geometric Mandala Designs By Rebekka GeoMandala 2: The Second Coloring Book of Geometric Mandala Designs I would just say ditto from my review of the GeoMandala 1, but is not enough words for a review. It is a very fun book to color. 2 of 2 people found the following review helpful. Very relaxing! By Kindle Customer I have a lot going on all the time and I get stressed so I was reading about how this product is recommended to teach you to concentrate on one mandala at a time. It works, I do a page a day I get so involved with the colors and the design before I know it I'm stress free. I would recommend this for those of you who need to take a break. 0 of 0 people found the following review helpful. Really love that the pages are black By Customer Really love that the pages are black. Been looking for another mandala book like that (white spaces on black pages) since I found one overseas a couple years ago. The mandalas in this book are also nicely intricate, good for relaxing / meditating / focusing.

Another 24 mandala designs for coloring enthusiasts of every age! These intricate geometric designs are printed on one side of the paper for convenient coloring. Each mandala is also framed by a black background for a touch of

elegance!
