By Tina Samuelshello again my furry little friend. just wanted you to know i am about halfway through this book of yours. I will explain. not too long after i got the damn thing i started reading it and of course im laughing till i hurt. in the meantime i became ill and ended up having surgery on my abdomen and well lets just say i can now identify with the trip to the vet and a few other things thrown in for good measure. im currently convalescing at home and have recently been able to start reading again. while in the hospital my husband being the greatest guy in the world brought your book for me to read not knowing what it was about nor did he care and i was so happy. then i started to read your book and let me just say that i laughed and then i cried literally. this book is not for someone who has just had abdominal surgery. now at home i have to stop from time to time for fear of pulling stitches. the dr. recently gave me the ok to drive and someone was giving away kittens. now i have never been a cat person. i have two miniature schnauzers that just rule here. so after asking my husband about it, the answer was no and not in a polite way either. i just wanted you to know the uproar you have caused in this household. my husband and i both agree it is your fault. one must place blame where it belongs. i will let you know when i bring the cat home. actually im thinking of a kitten. what do you think? after all you did start all of this.

Getting Out - Excerpts from a Cat's Diary is the first book in a trilogy of at least four books (according to the author). Translated from the original Cat by John Woodcock. It is a humorous 'diary' where 'Bridget Jones' meets 'The Great Escape' head on. The escapee is a domestic cat who believes that he is a great diarist and describes, in his own words, his almost daily escape attempts. Over 400, yes four hundred pages of laughter!

About the Author John Woodcock - author, scriptwriter and creator of several animated cartoon series including Dino Dogs, Pirates of Baccaruda and Stories from Battatland. John doesn't write just children's books, but then they are hardly adult, they are just good plain fun.
